A8	1,3-Dihydroxy- 2-propanone Dihydroxyacetone CAS No 96-26-4	a) Hair dye substance in non- oxidative hair dye products b) Self-tanning products Use for dyeing eyelashes and eyebrows is not permitted.	a) 6.25% b) 10%		
A9	Thiolactic acid and its salts	(a) Hair waving or straightening products (b) Depilatories (c) Other hair care products which are removed after application	(a) 8.5% ready for use at pH<9.5 (b) 5% ready for use pH 7- 12.7 (c) 2% ready for use pH 7- 9.5 For general use of hair waving or straightening products the maximum concentration for combination of Thioglycolic acid and thiolactic acid must not exceed 8% calculated as Thioglycolic Acid.	For (a), (b) and (c): The direction for use drawn up in the national or official language(s) must incorporate the following sentences: - Avoid contact with eyes - In the event of contact with eyes, rinse immediately with plenty of water and seek medical assistance. As from 1 December 2020: - Wear suitable gloves (a) and (c) only	(a), (b) and (c) • Contains thiolactic acid • Follow the instructions • Keep out of reach of children.
A10	Tranexamic acid	Skin products	3.0%	Not to be used in products intended to be placed in contact with mucous membranes	

- (1) These substances may be used singly or in combination provided that the sum of the ratios of the levels of each of them in the cosmetic product expressed with reference to the maximum level authorized for each of them does not exceed 1.
- (2) Only if the concentration exceeds 0.05 %.
- (3) Entry deliberately left blank

ANNEX III -List of substances which cosmetic products must not contain except subject to restrictions and conditions laid down

- (4) The quantity of sodium, potassium or lithium hydroxide is expressed as weight of sodium hydroxide. In cases of mixtures, the sum should not exceed the limits given in column d.
- (5) Entry deliberately left blank
- (6) The concentration of sodium, potassium or lithium hydroxide is expressed as weight of sodium hydroxide. In case of mixtures, the sum should not exceed the limits given in column d.
- (7) Entry deliberately left blank
- (8) Solely for products which might be used for children under three years of age and which remain in prolonged contact with the skin.
- (9) Entry deliberately left blank
- (10) Entry deliberately left blank
- (11) Entry deliberately left blank
- (12) For all toothpaste containing 0.1-0.15% fluoride unless it is already labelled as contra-indicated for children (e.g. For adult use only). Must also carry 6mm diameter solid circle between the words "pea sized" and "amount" to indicate actual amount to be used.
- (13) Labeling mandatory for products containing Glycolic and/or Lactic acids at a concentration $\geq 2.5\%$ and do not contain a sunscreen. Not required for products that are intended to be applied to non sun exposed areas of the body, contain a sunscreen or a lower concentration of AHA.
- (14) Entry deliberately left blank
- (15) Entry deliberately left blank
- (16) Entry deliberately left blank
- (17) Entry deliberately left blank
- (18) Entry deliberately left blank
- (19) The CAS Numbers under this column are not exhaustive to cover all the intended substances. They are provided as reference where available.
- (20) The types of salts is not be limited to those listed in this reference.
- (21) The limit of nitrosamine refers to the maximum permitted level in the ingredient, not in the cosmetic product.
- (22) This restriction does not apply to products with secondary UV protection claims, such as moisturizing and skin lightening products as described in the preamble of ASEAN Sunscreen Labeling Guidelines
