

# CLOMAZOL SOLUTION

Clotrimazole 1%w/w

## **What is in this leaflet**

1. What *Clomazol* is used for
2. How *Clomazol* works
3. Before you use *Clomazol*
4. How to use *Clomazol*
5. While you are using *Clomazol*
6. Side effects
7. Storage and Disposal of *Clomazol*
8. Product description
9. Manufacturer and Product Registration holder
10. Date of revision

## **What *Clomazol* is used for**

It is used to treat fungal infections such as ringworm, athlete's foot, fungal nappy rash and fungal sweat rash, or other fungal infections of the skin.

## **How *Clomazol* works**

It contains clotrimazole which is an antifungal agent which fights the cause of fungal infections.

## **Before you use *Clomazol***

*When you must not use it*

- allergic to clotrimazole or other ingredients of *Clomazol*.

*Before you start to use it*

Do not apply occlusive dressing over this medication unless directed by doctor. Safety for use in pregnancy and during breastfeeding has not been established. Inform your doctor if you are pregnant or breastfeeding.

*Taking other medicines*

The medicine is for topical application and will usually have minimal effect on other medications. However, please inform the doctor or pharmacist if taking other medicines.

## **How to use *Clomazol***

*How much to use*

Apply 2 – 3 times daily on affected area. Continue for another 2 weeks after symptoms disappear.

*When to use it*

Please follow the advice of the doctor or pharmacist.

*How long to use it*

You should check with your doctor or pharmacist.

*If you forget to use it*

If you forget to use this medicine, use it as soon as you remember. Then continue using it at your usual time.

*If you use too much (overdose)*

If you have used too much *Clomazol*, contact your doctor, an emergency department or a poisoning center immediately.

## **While you are using *Clomazol***

*Things you must do*

Inform your doctor of all the medications you are taking.

*Things you must not do*

Do not stop using medication although you feel better after a few days, until the prescribed course is finished.

*Things to be careful of*

If you are pregnant, become pregnant, or are breastfeeding, you should not use *Clomazol* unless advised by your doctor.

## **Side effects**

When applied topically, local reactions including redness, hives, itching, stinging and irritation may occur in patients. If any of the side effects become serious or any other side effects not listed in this leaflet, please inform the doctor or pharmacist.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by calling Tel: 03-78835550, or visiting the website [portal.bpfk.gov.my](http://portal.bpfk.gov.my) (Consumers → Reporting)

## **Storage and Disposal of *Clomazol***

*Storage*

Store in cool, dry place below 30°C. Protect from light. Keep out of reach of children.

*Disposal*

Ask your pharmacist how to dispose of medicines no longer required.
