What Fuji Ubat Batuk is used for

It is indicated as expectorant for symptomatic relief of cough due to colds and minor upper respiratory tract infections.

How Fuji Ubat Batuk works

Fuji Ubat Batuk contains guaifenesin which has expectorant action which facilitates the removal of mucous.

Before you use Fuji Ubat Batuk

-When you must not use it

- It should not be used in patients known to be hypersensitive to guaiphenesin or other components of the formulation.
- Not for persistent cough such that occurs with smoking, asthma or shortness of breath, or where cough is accompanied by excessive secretions.

-Before you start to use it

Pregnancy and lactation

Talk to your doctor before taking this medicine if you are pregnant, might become pregnant or are breastfeeding.

-Taking other medicines

Inform your doctor or pharmacist before taking this medicines, including any that you get without a prescription from your pharmacy, supermarket or health food shop.

How to use Fuji Ubat Batuk

-How much to use

Always use Fuji Ubat Batuk exactly as your doctor has prescribed. You should check with your doctor or pharmacist if in doubt.

The usual dose:

Adult & Children >12 years: 100 - 400mg (5ml - 20ml) every 4 hours. Do not exceed 2.4g/day (120ml/day).

6-12 years: 100 - 200mg (5ml - 10ml) every 4 hours. Do not exceed 1.2g/day (60ml/day).

-When to use it

Use as directed by your doctor or pharmacist.

-How long to use it

Continue taking Fuji Ubat Batuk as your doctor recommended. If symptoms persist, consult your doctor.

-If you forget to use it

Consult your doctor or pharmacist on what you should do if you forget to use it.

Take the missed dose as soon as you remember. If it is almost time for your next dose, wait until then to take the medicine and skip the missed dose. Do not take a double dose to make up for the missed dose.

-If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have taken too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

While you are using Fuji Ubat Batuk

-Things you must do

- Inform your doctor or pharmacist if symptoms persist after taking this medication.
- Take your medicine exactly as your doctor has told you.
- Tell all the doctors, dentists and pharmacists treating you that you are taking Fuji Ubat Batuk.
- Tell your doctor immediately if you become pregnant while taking this medication.

-Things you must not do

- Do not take more than the recommended dose unless your pharmacist or doctor tells you.
- Do not take any new medicines without consulting your doctor.

- Do not give Fuji Ubat Batuk to anyone else, even if they have the same symptoms or condition as you.

-Things to be careful of

Be careful driving or operating machinery until you know how Fuji Ubat Batuk affects you.

Side effects

Like all medicines, Fuji Ubat Batuk can cause side effects, although not everybody gets them.

If symptoms persist, do not take the medicine and refer to the doctor.

Tell your doctor if you notice any of the following side effects or notice any other effects not listed:

- Gastro-intestinal discomfort.
- Nausea
- Vomiting

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by calling Tel: 03-78835550, or visiting the website npra.moh.gov.my (Public → Reporting Medicinal Problems / Side Effects / AEFI / Vaccine Safety).

Storage and disposal of Fuji Ubat Batuk

-Storage

Keep container tightly closed. Store between 15-30°C. Protect from heat light.

Keep medicine out of reach of children.

-Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.
