What GATALKO CREAM is used for

Indicated for relieves inflammation of sinus, muscle and joint pains, sprains, strains and pains.

How GATALKO CREAM works

Camphor is a stimulant, caused reddening of the skin, used to relieve itching and feebly antiseptic which becomes ideal for intense nerve and other painful areas.

Menthol dilates the blood vessels causing a sensation of coldness, followed by analgesic effect. It also acts as penetration enhancer, increased penetration into the skin and faster onset of action.

Before you use GATALKO CREAM

- When you must not use it

Do not use in infants under 2 years of age.

Ask your doctor or pharmacists for advice before taking GATALKO CREAM.

- Before you start to use it

Tell your doctor if you have an open wounds or hypersensitive to the medications.

- Taking other medicines

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

How to use GATALKO CREAM

- How much to use

The preparation should be applied to the skin sparingly, slightly rubbing 2 to 3 times a day when necessary. It should not be applied to blistered, raw or oozing areas of skin, near to the eyes and is not recommended for the face and genitalia.

The directions given may differ from the information contained in this leaflet. If you do not understand the instructions on the label, ask your doctor or pharmacist for help.

- When to use it

Use as directed by your doctor or pharmacist.

- How long to use it

Continue taking GATALKO CREAM for as long as your doctor recommends.

- If you forget to use it

Take the missed dose as soon as you remember. If it almost time for your next dose, wait until then to take the medicine and skip the missed dose. Do not take a double dose to make up for the missed dose.

- If you use too much (overdose)

No reports regarding overdose.

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have taken too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

While you are using it

- Things you must do

Take your medicine exactly as your doctor has told you.

Tell the doctor, dentist and pharmacist treating you that you are taking GATALKO CREAM.

- Things you must not do

Do not take any new medicines without consulting your doctor or pharmacist.

Do not give GATALKO CREAM to anyone else, even if they have the same symptoms or condition as you.

- Things to be careful of

Caution must be exercised when older children are treated. It is dangerous to place any camphor-containing product into nostril of children. A small amount applied this way cause immediate collapse.
